ITEM #7 San Diego Complete Communities: Mobility Choices Regulations/DEIR Voting Item

The City of San Diego has issued draft mobility choices regulations and a draft Environmental Impact Report (DEIR). The regulations are intended to provide more mobility options for commuting and recreating, along with safe and convenient transportation choices. Comments are due on January 27, 2020. For more information go to: <https://www.sandiego.gov/planning/programs/mobility/mobilitychoices>

ITEM #8 Proposed letter on Marijuana Dispensary

Voting Item

Recent articles in newspapers have emphasized the 1,000 ft. distance from “sensitive uses” requirement as the key to qualifying a marijuana dispensary being proposed in Rancho Bernardo. While the 1,000 ft. requirement is important, as is a proposed traffic study, these are not the only issues. Of equal importance to residents of Rancho Bernardo, as expressed in meetings of the Planning Board, is the community’s objection to the location as proposed. I am

proposing a letter to the Planning Commission stating that objection. While the letter may be characterized as NIMBYism, we should reflect the views of the community for the record.

Help Improve Transportation Options for Seniors, Low-Income, and Disabled Individuals

SANDAG will hold two public workshops to gather input on the 2020 Coordinated Public Transit-Human Services Transportation Plan. You're invited to provide input on ways to improve public transit and specialized transportation options for seniors, low-income, and disabled individuals, and to discuss other issues pertinent to specialized transportation in the San Diego region.

The Coordinated Plan is updated every two years and assesses current transportation services, as well as the transportation needs for individuals with disabilities, older adults, and low-income households. The plan also proposes strategies to address identified gaps between current services and needs, and identifies priorities for implementation based on resources, time, and feasibility.
